IDEA 3152  
Copy 2  
17 May 1966

**MEMORANDUM FOR:** Chief, Security Staff, OSA

**SUBJECT :** Itek Access to [ ] Traffic

25X1

1. During the last week of April 1966, Project Articles and support personnel at [ ] were returned to their parent activities. The only Project equipment and personnel left behind at [ ] were a Delta III camera and 3 Itek Maintenance Technicians.

25X1

2. USAF has been asked for a determination on when these Project assets and people can be returned to our auspices. An answer has not been received as of this date. This office cannot hazard a guess on when the employment of the Delta III by USAF will be completed.

3. To ease exchange of technical data between the Delta III Technicians and this Headquarters, approval was granted for these individuals to submit and receive traffic via the AFSSO, [ ]. Invariably, these messages affect Itek and require additional administrative actions to include that Contractor in the "loop". Recommend Itek be permitted entry to the [ ] circuit until such time as the Project commitment is concluded.
